Meals on Board

Once you arrive, transfer to Seattle to see the famous landmark, the **Space Needle**.

Continue on to **Pike Place**

Market, a place filled with history overlooking the waterfront as well as the very first store opened by the **Starbucks Coffee Company**.

Thereafter, we will visit the

Starbucks Reserve Roastery, a modern coffee facility where you can learn about the coffee roasting process, from the sourcing and roasting of beans to brewing and drinking. Your next stop is **Kerry Park**, where you'll be treated to a panoramic city view of Seattle. It is the perfect location for avid photographers, where they can capture the famed shot of the Space Needle with Mount Rainier in the backdrop.

02 SEATTLE ▶ SPOKANE ▶ MISSOULA

Breakfast, Dinner

Begin the day with a drive east from Seattle along the I-90 to reach **Spokane**. The second-largest city in the State of Washington, Spokane stands out as a destination overflowing with natural beauty. Continue on to **Missoula** in Montana. En route, we will stop by the **50,000 Silver Dollar Collection Bar** – a unique bar with the largest coin collection of its kind on display, each inscribed with the name of the person who donated it.

Thereafter, return to Missoula for your overnight stay.

03 MISSOULA ▶ YELLOWSTONE NATIONAL PARK ▶ IDAHO

Breakfast, Dinner

Get a splendid start today with a visit to the **Yellowstone National Park**. The largest, oldest, and most famous national park features an amazing medley of hot springs, geysers, canyons and waterfalls, along with spectacular nature everywhere you look! You can't miss the **Dragon's Mouth Spring**, a hot spring that boils out of a deep cave, where gasses and steam are released to create pressure bubbles that explode against the roof of the cave. This forms a booming and gurgling noise that resembles a growling noise, and when paired with the billowing steam wafting from the mouth of the cave, it gives off the fantastical impression of a dragon. The **Fountain Paint Pot** is named after the colourful mudpots in varying hues of red, yellow and

brown due to the oxidation of iron components. Similar to all other hot springs, the heat in the crater forces pressurized water through the ground where it is expelled. Next, view the **Old Faithful Geyser**, possibly the park's most well-known natural feature due to its predictable eruptions that measure 30 to 55 metres high.

04 IDAHO ▶ GRAND TETON NATIONAL PARK ▶ YELLOWSTONE NATIONAL PARK ▶ IDAHO

Breakfast, Dinner

This morning, proceed to **Jackson Hole** and visit **Elk Antler Arches Park**. Look out for the famous Antler Arches of Jackson in town, a unique and gorgeous landmark representing the nearby Elk Reserve. Thereafter, head to **Grand**

Teton National Park to explore the extraordinary wildlife and

breath-taking views of the natural landscapes. Next, make your way back to **Yellowstone National Park**. In the northwest, the Mammoth District features the fascinating terraces of **Mammoth Hot Springs**, which is made up of travertine deposits. Marvel at the geological masterpiece of **Grand Prismatic Hot Spring**, the largest hot spring in the United States and the third largest in the world. The vivid colours in spring are the result of microbial mats around the edges of the mineral-rich water.

Next, move on to the **Mud Volcano Area** to see the impressive crater and other geothermal features in the surrounding area. The **West**

Thumb Geyser Basin is known as the West Thumb caldera which was formed by a volcanic eruption that took place 174,000 years ago. Proceed for photo stops at the **Upper Yellowstone Falls** and wonder at the amazing drop of 109 feet into the Grand Canyon of the Yellowstone. Then make sure to stop by the **Lower Yellowstone River Falls**, the largest waterfall by volume in the Rocky Mountains of the western United States with an even more impressive 308-foot drop -- almost twice as high as the Niagara Falls. Return to **Idaho** to rest for the night.

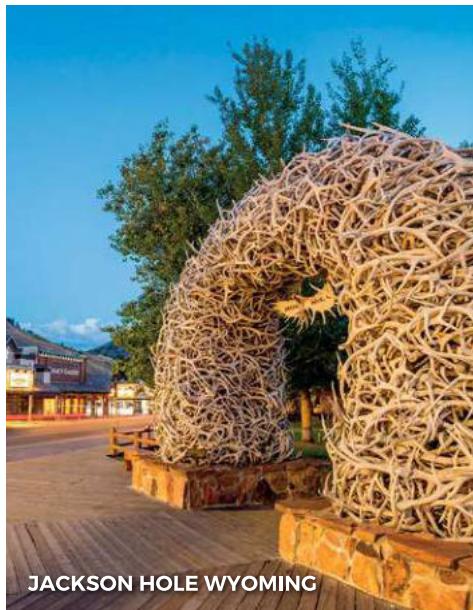

05 IDAHO ▶ YELLOWSTONE NATIONAL PARK ▶ MISSOULA

Breakfast, Western Lunch

Make your way to the west and southwest of Yellowstone, home to some 10,000 thermal features, of which more than 500 are geysers. The **Norris Geyser Basin** is the hottest, oldest and most dynamic thermal area in Yellowstone, making it one of the

OLD FAITHFUL GEYSER

JACKSON HOLE WYOMING

most extreme environments on the face of the Earth. Witness its many special features - the rainbow colours, hissing steam, and pungent odours create a one-of-a-kind sensory experience unique to Yellowstone. The changing colours are also equally impressive, thanks to a combination of minerals and life forms. The area features a milky blue colour more often than other geothermal spots because of a high silica concentration dissolved in the hot water. Reddish-orange is another prominent hue due to the iron oxides and arsenic compounds, whereas cyanobacteria contribute a deeper orange colour. Other parts of Norris, especially those with natural springs, tend to be emerald green due to the blue tone of refracted light mixing with the yellow shade of sulphur lining the pool. Last but not least, return to **Missoula** to retire for the night.

9. GENERAL MATTERS RELATING TO TOURS

9.1 Accommodation

Accommodation is as specified in the tour brochure / itinerary / tour booking form. In the event the specified accommodation is not available, every effort will be made to scout for an alternative in another accommodation of similar standard. Hotel room sizes, facilities and services may vary in different country. Accommodation for adults is based on twin-share, double or triple-share bedroom. Different room type might not be on the same level. Single room occupancy comes with an additional cost.

9.1.1 Room size is generally slightly smaller than what you may be used to. Space is precious commodity in Europe and especially in its busiest cities. Many of the buildings will have been in existence for hundreds of years and were not built with the modern traveller in mind. The upside is that they are usually in excellent locations and have a fascinating story to tell.

9.1.2 Bed sizes may also differ. In Europe, King and Queen-sized beds are very rare. Here, double beds are the norm and you may often find that a double room consists of two twin beds pushed together instead of a full bed, made up with one set of linen. You may also find that twin beds will be placed very close together.

9.1.3 A triple room is the same size as a twin-share room. The third bed is always a roll-away bed or sofa bed added into the room. As a result, you may feel that the room is very cramped and small.

9.1.4 Europeans are very socially and environmentally conscious, especially about air-conditioning in Europe. During autumn and winter seasons, the central air-conditioning will be switched off in the hotel rooms. So, do not expect that the air-conditioning will be switched on in the room. You may open the windows to let cold air in, where possible.

9.2 Special Request

If there are any requests regarding special meals, dietary requirements, adjoining rooms, flight seating arrangement and so on, please inform the Company upon booking. However, such requests are strictly subject to confirmation and availability by the airlines/hotels. There are no halal meals on tour.

9.3 Baggage

The Customer is usually allowed check-in baggage not exceeding twenty (20) kilograms. Only one piece of hand-luggage not exceeding seven (7) kilograms is allowed on board the aircraft. Excess baggage charges must be borne by the Customer and are subject to individual airlines' company policy.

9.4 Meals

9.4.1 Meals, including meals served on flights, are as indicated in the tour brochure / itinerary / tour booking form. In the event where in-flight meals are not served due to whatever reasons, there shall be no refund or replacement.

9.4.2 You and your travelling companions will generally dine together at a designated time. Table will often vary in size and free seating enables you to dine with family members or new travelling companions each evening. A breakfast buffet is included daily and will reflect the local regions tastes and culture. Very occasionally, an early departure may result in a light breakfast box for you to take away if applicable. Lunches are

sometimes included but are usually an opportunity for the guest to enjoy some free time to visit a local café, bar or restaurant and eat where the locals do. Your tour manager will be able to provide you with a range of options to suit all tastes and preferences.

9.5 Seat Rotation

For the convenience of all members of the group, passengers may be requested to rotate their seating arrangements on the coach during the period of the tour. Please cooperate when requested to do so by the tour manager / tour leader / guide.

9.6 Motor-coach

For selected itineraries with Wi-Fi on coach using 3G mobile network, please be aware that the connection is slower than standard broadband and at times may not be available. It is good for checking emails, web browsing and updating social media accounts, but less so for streaming videos or large photo uploads.

9.7 Single Room Supplement

Please note that customers paying for single room occupancy supplement charge will be allocated a single room. The single room supplement charge as indicated in the booking form applies. Hotels will try their best to upgrade twin/double room for guests who opt for single room occupancy, but this may not be possible in the event when hotel occupancy rate is high.

9.8 Suggested Excursion

Optional list may be subject to change, depending on the time you are travelling or local circumstances including weather and days of the week. Further information will be provided by your Tour Manager / Guides during the tour.

9.9 Flights

The tour group might be comprised of flights on different airlines, so the Tour Manager may not be on the same flight as the group. If the group is not on the same flight as the Tour Manager, the group will have to proceed to transit on their own. There will be a check-in staff at Singapore Changi Airport to assist the group to check in if the Tour Manager is not flying together.
